

## press release

### Allied PhotoChemical renews ISO 9001:2008 Certification.

*Allied PhotoChemical continues to build upon a decade of ISO Certification.*

**MARYSVILLE, MI** – February, 2010 –Allied PhotoChemical recently received ISO 9001:2008 recertification, based on a thorough external audit by American Systems Registrar, LLC.

“Allied PhotoChemical made the investment initially back in 2000, working with an ISO Consultant, which provided a good foundation to build upon,” said Frank Boji – Quality Manager. “This type of continued attention and continuous improvement to the ISO process had definitely benefited Allied’s customers, plus has provided an excellent discipline within Allied.”

“Initially, the ISO process covered only the production side of Allied’s business,” says Dan Sweetwood – Vice President of Sales, “With each year of ISO in-practice, Allied continued to expand the implementation of ISO; which now covers all internal aspects of Allied’s UV Technology business.”

**ISO 9001: 2008**

**ASR Certificate Number: 3492**
