## Press Release

### Allied PhotoChemical article "The Miracle of UV Light" featured in March/April, 2008 edition of RadTech Report.

*Pictorial offers real-life applications along specific application and financial data.*

MARYSVILLE, Mi – April 30, 2008 - Allied PhotoChemical, a leading manufacturer of UV Paint and Coatings Solutions, today announced that the March/April, 2008 RadTech Report magazine has published a feature article entitled "The Miracle of UV Light."

"This article offers a complete review of a multitude of current UV applications along with a picture and summary application details," says Dan Sweetwood – Vice President of Sales and Marketing. "This is a cursory review of some customer applications/engagements that demonstrate the capabilities of implementing UV 100% solids solutions and provides some background on their financial reasons for supporting an UV implementation."

For a copy of the article, please contact Allied PhotoChemical.
