## Press Release

### Allied PhotoChemical article featured in September/October, 2008 RadTech Report

*White Paper provides "Economic & Technical Lessons" for implementing UV coatings over Solvent coatings*

MARYSVILLE, Mi – September 15, 2008 - Allied PhotoChemical, a leading manufacturer of UV Paint and Coatings Solutions, today announced that the September/October, 2008 RadTech Report magazine has published a feature article entitled "The Financial and Technical Feasibility for UV Coating Exchange Propane Tanks".

"This article offers a complete ROI – Return on Investment financial review...of the benefits of implementing a UV project compared the traditional solvent system," says Dan Sweetwood – Vice President of Sales. "Allied PhotoChemical has worked with hundreds of customers, multiples of integrators and fully understands the financial advantages of implementing a UV system V's traditional solvent and water-based system."

Allied PhotoChemical will be leading a Webinar, along with key market leaders Sartomer and Nordson, entitled "Sustainable UV" on Wednesday, October 8, 2008.
